

GOLVIN TOMY

FULL STACK DEVELOPER (MERN + AI INTEGRATION)

Email | [LinkedIn](#) | [Portfolio](#) | +91 8921151459

Professional Summary

Full Stack Developer specializing in MERN stack and AI-powered web applications. Experienced in building scalable, secure, and user-centric platforms with REST APIs, authentication systems, and Retrieval-Augmented Generation (RAG) pipelines. Strong focus on clean architecture, performance optimization, and real-world problem solving. Background in client-facing roles before transitioning fully into software development.

Key Highlights

- Built and successfully deployed 2 full-stack applications with live production links.
- Developed an AI-powered RAG system using vector search and LLM integration.
- Extensive experience in secure backend development (Helmet, Bcrypt, Passport.js).

Technical Skills

- **Languages:** JavaScript (ES6+), Basic C#.
- **Frontend:** React.js (Hooks, State Management), Tailwind CSS, HTML5/CSS3.
- **Backend:** Node.js, Express.js, MVC Architecture, REST API Design.
- **Database:** MongoDB Atlas, Mongoose, Indexing & Schema Design, Basic SQL.
- **AI & Security:** RAG Pipelines, Vector Search, HuggingFace Transformers, JWT, OAuth.
- **Tools:** Git, GitHub, Postman, Vercel, Render, Figma, Agile/Scrum.

Projects

KnowledgeHub – AI-Powered Knowledge Platform | [Demo](#) | [GitHub](#)

- Built a full-stack AI-powered platform using MERN stack with RAG pipeline integrating HuggingFace embeddings and MongoDB Vector Search
- Implemented semantic search and context-aware Q&A system for efficient information retrieval
- Designed group collaboration features with invite-based access and shared knowledge spaces
- Integrated LLM for automatic summarization, tagging, and intelligent responses
- Developed secure backend with JWT authentication and role-based access control

StringCraft – E-commerce Web Application | [Demo](#) | [GitHub](#)

- Developed a full-stack e-commerce platform using MERN stack
- Implemented JWT and Google OAuth authentication with session management
- Built REST APIs for product management, order processing, and reviews
- Designed admin dashboard with role-based access control
- Structured backend using MVC architecture for scalability and maintainability

Education & Certification

- **B.Sc. in Mathematics** | Mahatma Gandhi University, Kerala | 2014-17
- **Project-Based MERN Stack Training** | Expertisor Academy.
- **MERN Stack Development Bootcamp** | Brototype.
